BEN BUTLER, the alleged "Beast" of 1861-65, cocks up his swivel eye and sagaciously observes that the political pendulum swings every two years, and that this fact is responsible for the upheavals this year. This is probably a correct forecast, but if Butler keeps on talking that way, he will witness a revival of the vituperative fusillades with which the Democrats, from Maine to New Orleans, used to built in that part of the State, to save assail him in days gone by.

They followed this up on sub sequent days by advertising in the same paper all the worst things said against Butler by prominent Democrats during former campaigns, including many strong quotations from the Post itself.

THE GAME OF THE GLANTS.

Landscape O'er. Reported Purchase of the California Souther by the Stanford Interest, and its Prob-able Effect on Los Angeles.

Robert Burns' oft-quoted phrase The best-laid plans of mice and men gang aft agley," is well exemplified in the present railroad chess-board of the Southwestern States and Territories. Just when the question of a competing system of railroads to Los Angeles and vicinity seemed settled in the affirmative, our hopes are doomed to disappointment, if the reported purchase of the California Southern by Leland Stanford is true. In view of its extreme probability, it is well to consider the advantages and disadvantages which may result from the purchase. In the

INTERESTS OF LOS ANGELES, but they may be briefly outlined as follows: The only advantage will be the possible continuation of the liberal policy adopted for some time past by the Southern Pacific Railroad towards Los Angeles, and the consequent benefit from the absorption of the old and the opening of new lines. On the other band, if it will benefit the interests of the company to discriminate against Los Angeles, it will undoubtedly be the company to discriminate against Los Angeles, it will undoubtedly be

done. Among other questions which naturally arise are the following: Should the Southern Pacific Company find it to their interest to BUILD UP SAN DIEGO, what can Los Angeles do as an offset to that move? Viewed from every standpoint, the subject is indeed one of grave importance, which justifies the note of alarm recently raised in behalf of Los Angeles, and also justifies the demand

TWO THINGS OF VITAL IMPORTANCE to Los Angeles city and county be undertaken without delay, viz.: 1. The securing of a harbor at San Pedro with water sufficiently deep to admit vessels of the largest burden. 2. "BLEAR-EYED BEN." for the TIMES. O, is it really, truly true— This wondrous tale of men, "The Democrats have pulled you through," O giulet-visioned Ben?

And will the country own your sway— The land of pork and beans, and will you have your own sweet way As once at New Orleans? And will they call you "Ben the Beast,"
"Old cock-eyed, bl-ar-eyed Ben"—
Pet compliments the very least
Their minds could think of then?

O, will they prance around in glee And trample on the flag, And call our glorious emblem free, "A weak old woman's rag?" And go for everything in sight, The same as they did then, When they were on the rob and fight In years ago, twice ten?

"Thief-Butler" will they call you now, And swear you shall not live— The victor-wreath upon your brow, And offices to give? And will they roast more "naygers," now The cup or bliss they've quaffed, And murder, burn, and raise a row, And buck "formist" the draft?

In accordance with the resolution of the Council, passed Saturday night, the sweeping of the streets was begun last night, a force of seven men being put on with hoes and stiff street brooms. The remedy would seem to be to scale up and cart off all down to the gravel grading material if it can be found.

And when the child has reached the age of ten or twelve it proves to be willful and disobedient, and the parent has litted or no control over it, much less have the or no control over it, much less have teachers.

Kindness in such cases seldom proves effectual. Many times have I heard children boast that they had never been punished in their lives; but that is not merit a sound thrashing. I merely illustrate facts like these to show that the greatest responsibility rests with parents in training their children so that when they go out into the world they are able to steel themselves against its temptations. If the home training good, reform schools would be needless in Los Angeles, for surely the city contains but few orphans or waifs, it becomes again.
